

NEW EXCITING, DYNAMIC CLASS

This program is ideal for industry professionals and board members with intermediate to advanced experience with Cooperative infrastructure.

The goal of Midwest Association of Housing Cooperatives Certification.

"An excellence recognized by the Cooperative Industry"

We continue to update educational topics that are constantly changing in our industry.

CERTIFIED COOPERATIVE SPECIALIST

Educational Training

The Certified Cooperative Specialist (CCS) certificate program strengthens cooperative housing community, helping to achieve ever-increasing higher professional standards.

Material for all that want to understand Cooperative Management, Cooperative day to day challenges, and ways to consider or reconsider how to get and keep your Cooperative out in front.

Certification provides an industry standard, a commitment to a level of knowledge and learning that can be relied upon.

Like a professional license, certification offers structured, reliable evidence of skills. In today's increasingly complex and highly-specialized economy, credentials are everything.

MAHC has introduced certifications to recognize those individuals who have made the investment to become certified in the cooperative organizations. Your training and certifications demonstrates a commitment to a level of proficiency that can be relied upon.

Developed by the Midwest Association of Housing Cooperatives

The program features instructor-led training components, providing professional and Board Members an opportunity to learn new skills, validate their existing skills, and gain a better understanding of the latest technologies and solutions in an ever-changing world.

Now we present a total revised and updated manual. The power point slides, the test and a small property prototype manual have all been added, updated, and reworked to keep it exciting, dynamic, and pertinent with new things and new ways to do things.

"I had no idea of the range of topics and intensity. This is so important to all in decision-making roles. Handouts, workshop and visual graphics were of "primo" quality."

Nancy Elizabeth Brown-Smith
